DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of group 1 in the reply filed on 02 May 2005 is acknowledged. Applicant's amendment filed 04 January 2007 has overcome the election requirement, and the requirement is hereby withdrawn.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 4-13, 27, 30-33, 37-45 and 48 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bruxvoort et al, 5,219,462 in view of Homola US 20040096705A1, as set forth in the Office action mailed 27 December 2005, and Boyd et al, 6,495,464, as set forth in the Office action, mailed 13 September 2006.

4. Please refer to the previous Office action for the rejections based on '462 and '705. Applicant has further amended the claims to the substrate being planar. It is the examiner's position that lacking further limitations, '462 discloses a substrate having a planar surface, which meets the limitation "a substrate which is planar". Further, '462 discloses the use of a plasticizer (softening agent) as part of the abrasive composite member, see column 9, lines 28-40.

5. Claims 34-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bruxvoort et al, 5,219,462 in view of Homola US 20040096705A1 and Boyd et al,

6,495,464 as applied to claim 27 above, and further in view of JP 11-333706, as set forth in the Office action, mailed 13 September 2006.

6. Claims 46 and 47 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bruxvoort et al, 5,219,462 in view of Homola US 20040096705A1 and Boyd et al, 6,495,464 as applied to claim 1 above, and further in view of Bruxvoort et al, 5,958,794, as set forth in the Office action, mailed 13 September 2006.

Response to Arguments

7. Applicant's arguments filed 04 January 2007 have been fully considered but they are not persuasive. Applicant argues that none of the cited references disclose "a substrate which is planar". The examiner notes that this is a broad limitation, which can be interpreted in a number of ways. Applicant has not claimed any specific planar surface. As such, '461 clearly discloses a number of embodiments where the substrate is planar, or at the least, has a planar surface. Note for example figure 4. Figure 4 discloses a backing sheet **54**, which is planar, and a polishing layer **52**.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
